

setOperationName

ch.bfh.gr33nopo55um.enocean.test.
Tester.main

```
graph LR; A[ch.bfh.gr33nopo55um.enocean.test.  
Tester.main] --> B[setOperationName];
```

A diagram showing a call from a class to a method. A box on the right contains the text 'ch.bfh.gr33nopo55um.enocean.test. Tester.main'. A blue arrow points from this box to a box on the left containing the text 'setOperationName'.
